

Muddsar Qayyum

Full Stack Developer

✉ maduwebtech@gmail.com ☎ +923485603534 📍 Muzaffarabad, AJK

Summary

Results-oriented Mid-Level Full Stack Developer with a robust foundation in modern web technologies, including JavaScript, Python, and Java. Proven ability to design, develop, and deploy scalable applications across the entire technology stack, from intuitive front-end interfaces using React and Angular to efficient back-end services with Node.js and Django. Eager to leverage expertise in cloud platforms and Agile methodologies to contribute to innovative software solutions and drive project success.

Experience

AJKED	Muzaffarabad
Computer Programmer	2022-01 - Present

Develops, tests, and maintains critical software solutions to optimize operations for public sector utilities. Specializes in building secure, efficient, and user-friendly applications—including database management and automated systems—to streamline government services and improve public-facing infrastructure.
